

# CNG Made Easy™

How to Stop Wasting Money  
on Petrol and Start Driving  
Smart.

*A brutally honest guide for every Nigerian  
Vehicle owner who's tired of being punished  
by fuel prices.*

# THIS IS NOT A JOKE

## You're Losing Money Daily

*Petrol is now N900+ per litre.  
That's not just expensive - it's unsustainable.*

Let's break it down:

*Driving from Lagos to Ibadan  
or Abuja to Lafia (about 200km)  
with petrol?*

Costs:  
**N25,000 – N30,000**

*Same journey  
on CNG?*

Cost less than:  
**N5,000**

That's a **N20k+**  
Difference on  
One Trip

**Now imagine doing that every week.  
By the end of the month, you've:**

- ~Spent over **N100,000** on fuel
- ~Burnt through your engine
- ~Lost money you could've used to grow your life

*We're not saying this to scare you.  
We're saying this to set you free.*

# WHAT IS CNG? AND WHY DOES IT WORK?

CNG = Compressed Natural Gas. It's not new.  
It's just underused in Nigeria. It is;

- ✓ **Cheaper:** Less than 50% the price of petrol
- ✓ **Cleaner:** Causes less engine wear (no carbon deposits)
- ✓ **Dual Fuel:** You still keep your petrol tank - no risk
- ✓ **Tested:** Countries like India, China, Egypt, Pakistan use CNG daily

**Futurewave works with verified OEMs ,  
licensed conversion centers, and finance  
partners to give you clean, guaranteed and  
affordable service.**

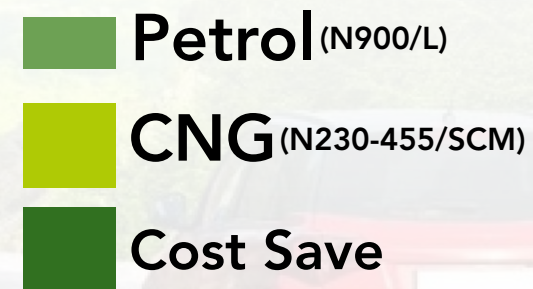

# THIS IS WHAT YOU'RE REALLY LOSING

Your Petrol Life Right Now (Monthly Estimate)

BAR CHART showing the cost savings

# THE HIDDEN DAMAGE YOU DON'T SEE

*Petrol is not just expensive. It's damaging your car.*

## CARBON DEPOSIT:

Block your injector, reduce engine efficiency.

## OVERHEATING:

Petrol burns hotter.

## FREQUENT SERVICE:

You're changing plugs, filters, and coils too often.

## With CNG:

- Cleaner combustion = longer engine life
- You save on both fuel and repairs
- Future resale value is higher - your engine remains healthy

# "BUT I'M STILL SCARED..."

***We understand. You have concerns.  
Let's answer them all:***

## **IS IT SAFE?**

**Yes.** With verified kits and proper installation, CNG is safer than petrol (less risk of fire or leakage).

## **WILL MY CAR SPOIL?**

**No.** Thousands of Nigerians are using it without issues. We use OEM kits, same standard used in India and Europe.

## **I HEARD KITS ARE EXPENSIVE?**

It used to be. Now? Install now, pay later. We have finance partners ready to help you convert and start saving.

## **WHERE WILL I REFILL?**

CNG stations are growing nationwide. Need help locating one near you? Ask us. We've mapped most major stations.

## **WHAT IF I NEED TO SERVICE IT LATER?**

We only work with conversion centers we trust. And you'll never walk alone - our support stays with you

# WHY FUTUREWAVE EXISTS!

*We're not random people doing marketing.*

**Futurewave was created out of frustration.**

We saw how drivers were suffering and no one was solving the real problem.

- ✓ **We've helped over 200 Nigerians convert to CNG**
- ✓ **We've partnered with Chinese OEMs**
- ✓ **We're building tools to support drivers — including station locators and after-sales care**
- ✓ **We're working with licensed finance companies so you can install now and pay small small**

**We're the plug you've been waiting for - and our goal is simple:**

**Make CNG accessible, affordable, and available to every Nigerian driver.**

# READY TO CONVERT? HERE'S HOW TO START

## CNG Conversion Includes:

- CNG Kit + Cylinder
- Verified Installation
- Testing & Safety Check
- Dual Fuel Option (CNG + Petrol)

## Flexible Payment Options:

- ✓ Pay once
- ✓ Pay in 2 parts
- ✓ Or convert now and pay daily or weekly

# BONUS - WHAT YOU'LL GET WHEN YOU JOIN FUTUREWAVE COMMUNITY

- **Free Checklist:** What to Know Before Switching to CNG
- Priority Support Access
- Station Locator (launching soon)
- Community Group for vehicle owners like You
- Help tracking your savings & usage
- Education that puts you in control

## FINAL WORD

You've survived this far on petrol.  
But you don't need to keep suffering.  
Make the smart move before petrol hits ₦1,200/litre (and it will).

**This isn't hype.** This is happening now.  
You have the vehicle. We have the solution.

**Let's talk.**
